Quality of Sleep and Not the Amount That Counts—New Collar Fads—Pique and Linen Collars and Novelty Vests—Organdy Guimpes Still in Vogue—Maxixe a Vegetable—To Mend China—Stenciled Pillows—Advanced Summer Blouses.

**QUALITY, NOT QUANTITY.**  
It is not so much the amount of sleep as its quality that counts. An Edison can get as much sleep in four hours as most of us get in eight, which means merely that his sleep is so intense, his rest so perfect, that in four hours all the fatigue poisons are driven from his system, while most men's sleep is so fitful or so light that it takes eight or nine hours to do the same work for them.

It does not matter what time you go to bed so long as you have a regular hour and stick to it. The old saying that an hour of sleep before midnight is worth two after it, is not true, but it has this much truth in it: That the early hours of sleep are worth more than the later. The man who remains healthy goes to bed about the same hour every night, and it makes little difference whether this hour be 9 p. m. or 3 a. m.

## NEW COLLAR FADS.

The Dry Goods Economist says that pointed and flaring collars in high wired or rolling form, such as have been and still are popular in organdy, are being strongly featured in pique and linen effects.

Some of the best of the demitallered styles are shown with vestee or with plastron effects, while others are simply mounted on a narrow band. Some are kept soft and undrained, while others are semi-laundered.

Pique and linen are also being employed in novelty vests and vest skirts, for wear with summer suits and dresses.

In spite of the many new styles in linen and pique, organdies continue in high favor, especially in collar and plastron effects. Organdy guimpes are the best sellers in the guimpes line.

## MAXIXE ALSO A VEGETABLE.

The maxixe is a Brazilian vegetable, although a dance of the newest species by the same name is better known.

It looks like a cucumber and has a rough skin.

This is removed and the vegetable is sliced and served with onions, as a salad. It may also be fried.

## TO MEND CHINA.

Take a very thick solution of gum arabic and water and stir into it plaster of paris until the mixture becomes a viscous paste. Apply it with a brush to the fractured edges and stick them together. In three days the article cannot be broken in the same place. The whiteness of

this paste or cement renders it doubly valuable.

## STENCILED PILLOWS.

Very serviceable and useful is the stenciled pillow. The design may be one of pine cone or a conventional pattern. If you prefer one of pine cone, stencil the cones and stems in reddish brown and the needles in bright green. If a conventional pattern is used stencil the design in brown, orange and dull green. To be attractive and effective, the designs should be stenciled on gray art linen. The entire pillow may be made of gray art linen or strips of the linen may be inserted on any color preferred. The strips may either be joined by narrow carpet-warp insertion or by merely sewing the strip to the background.

## ADVANCED SUMMER BLOUSE.

Cotton crepe, voile, fancy crepe and embroidered voile are the materials used for the popular summer blouse. They are fashioned with the raglan sleeve and finished with collar and cuffs of fine transparent voile. They come in tango, maize, peach, azure and pink. They are often finished with a cord which ties in the front.

## ROUND MOUNTAIN TO BE BIG PRODUCER

Goldfield, Nev., June 21.—As a result of the settlement of litigation between the Round Mountain Mining company and the Round Mountain Sphinx company, and the acquisition by the former of several properties adjacent to its ground, the Round Mountain company will be made one of the largest operators and gold producers in Nevada. The agreement by which all differences between the two corporations were finally adjusted, was signed by the directors of the companies in Goldfield this week and those chiefly interested made the statement that the terms were highly satisfactory to all. The exact terms of the compromise were not announced officially and will be given out in the official report to be sent to stockholders immediately following the ratification of the negotiations about a month hence. There is no doubt that the action of the directors will be ratified by both companies. It is said upon good authority that the settlement involves the payment to the Sphinx company of a considerable

sum in cash and the transfer to it of a block of Round Mountain stock. In return, the property of the Sphinx company, consisting of over forty acres, is taken over by the Round Mountain company, which is now enabled to proceed with the extraction of ore in territory formerly in dispute and involved in Apex litigation.

**Mine Conditions Improve.**  
James R. Davis, president and general manager of the Round Mountain company, informs me that there has been a notable improvement in conditions in the Round Mountain mine during the past month or two. The faulted segment of what is known as known as the Keane vein has been exposed on the 700-foot level and in ground of the original Round Mountain holdings. This vein is of large dimensions and throughout the development thus far conducted it is found to contain a high grade of milling ore, together with many seams of higher grade material. A drift has progressed for about 130 feet in good ore on the 700 level and a winze from this level has been sunk 90 feet in the same grade of ore. This discovery has served to double the mill heads during the past month, during which time the product of the vein has been going to the company's mill. At present the mill is treating approximately 5000 tons monthly and total operating costs are but \$4.25 per ton, making profitable the treatment of comparatively low-grade ore. At one of the main shafts the ore goes through a crusher underground, on the 400-foot level, whence the waste is trammed out by mule power through a tunnel and the pay ore is hoisted to the mill bins, thus saving a considerable expense in handling the product.

## NEW UTAH COAL ROAD COMPLETED

Salt Lake, June 22.—One of the biggest railroad engineering feats and one of the most expensive pieces of railroad construction in Utah, that part of the Utah Railway company's line between Castle Gate and the coal fields of Carbon county, is rapidly nearing completion, and is expected to be ready for business not later than September, according to William Ashton, vice president and chief engineer of the company. The link between Thistle and Provo, a portion of which is now in use as a second track by the Denver & Rio Grande railroad, will probably be put into service about the same time. By a joint traffic arrangement between the Utah Railway company and the Denver & Rio Grande company, the Denver & Rio Grande company will be prepared to take care of at least three of the Carbon county mines in the movement of the winter supply of coal.

The survey of the proposed route practically paralleled the line of the Denver & Rio Grande from Provo to Castle Gate, where it diverged through the rough country to the mines. This brought about negotiations relative to a joint traffic arrangement between the two companies, with the result that it was decided to construct the twenty-seven miles between Castle Gate and the mines, another link of twenty miles between Thistle and Provo, and temporarily at least use the tracks of the Denver & Rio Grande company from Castle Gate to Thistle jointly. Under the same agreement the track of the Utah Railway company from Provo to Thistle is to be used as a second track by the Denver & Rio Grande company. According to the present plans the Denver & Rio Grande company will operate the entire road, as it does the Southern Utah railroad at the present time.

## MURRAY VOTED DRY

BY CHURCH MEMBERS

The church folk of Murray yesterday by an overwhelming majority voted the city dry for the ensuing two years. However, the vote of the church folk was not official. Addresses were delivered in favor of prohibition in all of the churches of Murray, yesterday, and following the speeches a vote was taken, with the result that a large majority favored a dry town.

The liquor elections in Murray, Midvale and Sandy occur on the same day, Tuesday, June 30. There are no indications of any partisanship in the liquor elections.

## MILLERS HOLD BANQUET.

Pocatello, Ida., June 21.—A meeting of the Idaho Millers' association was held here yesterday and the day before, and a successful meeting is reported. The affair closed with a banquet last night in the Commercial club rooms. About thirty millers were present, the majority from southeastern Idaho. One of the leading discussions was upon what constituted different kinds of flour which go under patent names.

## LONDON CROWDS GIVE MILITANTS OWN MEDICINE

London, June 21.—Sufragette baiting has become the regular Sunday amusement of London crowds. The police were kept busy this afternoon in Hyde park protecting the women and escorting them to places of safety. Various suffragette meetings were broken up and the speakers hustled from the platform with threats of a ducking in the Serpentine. From the temper of the crowds these threats probably would have been put into execution except for the energetic action of the police.

Little discrimination was shown and several women spectators were subjected to rough treatment. The disorders finally became serious and the police were obliged to use their truncheons to disperse the rioters.

## BABY HIT BY ENGINE AND DIES HOUR LATER

Provo, June 21.—Fred Thomas Cox, the 18-month-old child of Mr. and Mrs. Gilbert Cox, died yesterday afternoon in the Provo general hospital an hour after it had been hit by the engine of a passenger train of the Salt Lake Route near the Cox home.

The babe had escaped from the close watch of its mother and was playing alone on the railroad tracks. The engineer was unable to stop his engine quick enough to avoid the child. The funeral announcement will be made later.

The stripes are of black, with old gold, brown and blue in subdued tones on a grey ground. The plain parts are of gabardine in grey, matching the silk.

## UTAH UNIONS TO AID PRES. MOYER

Butte, Mont., June 21.—Confronted by a grave situation tonight, President Moyer found satisfaction in the assurances from locals of the Western Federation of Miners that they would support him. It was intimated tonight that if the secessionist miners did not agree to work as federation miners, President Moyer would have organizers get sufficient federation men to work the Butte mines.

The first local to promise federation men was Eureka, Utah, which wired: "No. 151 pledges its moral and financial support to the Western Federation of Miners. There are thousands of idle miners in the country, and if the seceders do not want to work as union miners we will furnish our pro rata to take their places."

"G. W. Morton, secretary No. 151." The Park City, Utah, local wired: "Park City miners' union No. 144 is with you and the Western Federation of Miners to the end. Do all in your power to prevent the disruption of Butte local."

"Herbert Uthoff, president." "W. T. Quinn, secretary."

## SUMMER LECTURES AT HUNTSVILLE

The opening of the summer lecture course of the Huntsville Mutual improvement association took place yesterday and was marked by meetings in both the afternoon and evening.

Hon. B. H. Roberts was the speaker in the afternoon, his address being on the subject of "Success." Thomas A. Edison, the Philosopher.

Dr. Brimhall, president of the Brigham Young university of Provo, was the speaker at the evening meeting. The subject of his address was "The Value of Memory Gems." Both meetings were largely attended.

## WOOL GROWERS TO BE REPAID

Many Thousands of Dollars With Interest Ordered Returned for Excessive Freight Charges.

Washington, June 22.—Many thousands of dollars must be returned with interest to wool growers of the west, principally in Wyoming, Utah, Nevada, Idaho, Colorado, New Mexico and Montana, by railroads which have carried their city to western markets at freight rates which the interstate commerce commission today held excessive.

## DELIVERY HORSE WINS TROPHY

San Francisco, June 21.—Birdseye, a shaggy roan horse that rattled around the streets of San Francisco in the shafts of a butcher cart on weekdays, won the silver trophy in the free-for-all trot of the San Francisco Driving club's matinee races today.

The shaggy defeated a field of other speedy trotters shipped here for the race.

The butcher who uses Birdseye to deliver sirloin steaks, pot roasts and lamb chops, purchased the horse recently for \$100.

## LEGAL NOTICES

**NOTICE TO CONTRACTORS.**  
NOTICE IS HEREBY GIVEN THAT Ogdén City proposes to make the following public improvements, to-wit:

To repave Twenty-fourth street from the west side of Washington avenue to the east side of Grant avenue with two and one-half inches of asphalt on a six-inch concrete foundation; and to construct on either side of said Twenty-fourth street concrete gutters; the curb to be of sandstone, the same to be reset, where necessary, together with all the necessary excavating and grading therefor. And sealed bids are invited for said work and will be received at the office of the City Recorder in the City Hall at Ogdén, Utah, until 10 o'clock a. m. on the 30th day of June, 1914, at which time said bids will be considered by the Board of Commissioners, and contract awarded to the lowest responsible bidder. Instructions to bidders, plans and specifications for said improvements can be seen and examined at the office of the City Engineer in the City Hall of said city.

The right is reserved to reject any and all bids.  
By order of the Board of Commissioners of Ogdén City, Utah, this 4th day of June, 1914.  
FLORENCE O. STANFORD, City Recorder  
First publication June 4, 1914. Last publication June 26, 1914.

## NOTICE.

Notice is given that, pursuant to direction of the Board of County Commissioners of Weber County, Utah, and as authorized by Sections 527, 528, 529 and 530 of the Compiled Laws of Utah, 1907, bids will be received at my office until June 27, 1914, for such books, blanks and stationery as may be required by the several county officers of said county during the year beginning July 1, 1914. The probable quantity of each item may be ascertained by referring to the estimates of the same prepared by the several officers and on file in my office, and to which reference is hereby made. All bids shall state separately the price of each item of books, blanks and stationery to be furnished, and the right is reserved on behalf of the Board of County Commissioners to accept or reject any and all bids, or to accept or reject a part of any bid. The party to whom the contract is awarded will be required to give a bond for the faithful performance of the contract.

Bids will also be received until June 27, 1914, for the publication of county reports, notices and advertisements during the year, beginning July 1, 1914, including the delinquent tax list for the year 1914, the right being reserved by the Board of County Commissioners.

Dues can be paid to McBride Drug Co., 245 Washington Ave. Anna Mills, G. 223 W. 31st Street. Phone 1658. Marie Crites, Clerk, 2781 Monroe.

## That Hungry Boy

must have something besides bread-and-butter-and-jam and books and sermons to grow on, to study on, to play on. For the growing youngsters nothing equals

## SHREDDED WHEAT

the food that builds muscle and bone and brain—a natural, elemental food—containing no yeast, no baking powder or chemicals of any kind—just the pure whole wheat grain, steam-cooked, shredded and baked. Better than porridges for children because the crispness of the shreds compels thorough mastication which not only develops sound teeth, but is the first process in digestion.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Deliciously nourishing when eaten in combination with baked apples, stewed prunes, sliced bananas or canned or preserved fruits. Try toasted Triscuit Shredded Wheat Wafer for luncheon with butter, cheese or marmalade.

Made Only By The Shredded Wheat Company, Niagara Falls, N. Y.
